INTRODUCTION TO ENGINEERING INSURANCE

WHAT WE WILL COVER

- What engineering Insurance is
- Engineering Inspection
- Engineering Computers
- Engineering Insurance

SUMMARY

Engineering insurance is one of those things that you've probably heard of, but do you really know what it is, or have an understanding of how it works?

This course aims to explore the different varieties of engineering insurance, how each one works and the relevant enforcement laws.

Finally, we will look and understand the important factors involved in underwriting when arranging/renewing this type of insurance.

OBJECTIVES

By the end of this course you will;

Understand how engineering insurance works

Recognise what is required by health and safety legislation

Identify when engineering risks appear and how to approach
